Develop inclusive partnerships for implementing zones of agreement
Lack of Intergovernmental and Community Coordination/Communication
Cumbersome Project Planning and Approval Process
Develop Landscape-Level Strategic Fuels Reduction Treatments
Lack of Agreement on How to Manage
Lack of Stable funding for Fuels Reduction (Organizational and Project Funding)
Increase Local Restoration Capacity
Lack of Skilled Workforce
Integrate Food Security into Forest Management Actions
Fire Suppression Policy
Boom and Bust Economy
Lack of Appropriate (Sustainable, Local, Scalable) Forest Resource Utilization Capacity/Industry
Lack of Understanding / Preparedness / Public and Agency Perception of Fire
Create sustainable, diverse revenue streams
Lack of Social Infrastructure
Limited Opportunities for Youth
Lack of Stable Jobs
Conflicting Social Values
Lack of Social Acceptance of Planned and Unplanned Ignitions
Large Fire Suppression Costs
Increase the Use of Fire to Restore and Maintain Pre-historic Conditions (Landscape Scale, Contempory Context)
Drug and Alcohol Abuse
Lack of Civic Mindedness
Erosion of Community and Cultural Values, including Karuk Traditional Cultural Practices
Accelerate Development of Fire-Adapted Communities
Air Quality Restrictions
Continued Fire Exclusion
Lack of Beneficial Fire
Marijuana Industry - Negative Impacts
Historic Legacy of Industrial Conifer Managment
Altered Forest Structure and Composition (pka Overly Dense Forests)
High Road Density and/or Poorly Located, Designed or Unmaintained Roads
Impaired Habitat Connectivity
High Fuel Loading and Lack of Defensible Space
Refine and Implement Existing Fisheries Restoration Plans
Altered Sedimentation Regime
Dams and Diversions
Lack of Off-Channel Habitat
Habitat Degradation (terrestrial and aquatic)
Altered Stream Function (Channel, Floodplain, Riparian)
Diminished Water Quantity and Quality
Historic Industrial Mining Legacy
Climate Change
Poorly-Managed Grazing
Invasive Species / Disease Pathogens
Impaired Fishery
Establish and maintain resilient ecosystems, communities, and economies
Sustainable Local Economies
Cultural and Community Vitality, includes Food Security and Balanced Human-Fire Relationship
Fire-adapted Communities
Restored Fire Regimes
Resilient, Biodiverse Forests/Plants/ Animals/Fish
Healthy River System
