

KARUK TRIBE

LETTER OF INTENT FOR CANDIDACY

Name of Candidate: ROBERT J SUPER
Tribal Roll #: 4297
Candidate for: Member at Large Yreka District

CANDIDATE STATEMENT

My name is Robert Super and I am honored to express my intent to serve as the Member at Large Yreka District Representative. As the son of the late Peter Super Sr. (Karuk) and Nancy (Jerry) Super (Full-Blooded Karuk), and a proud member of the Davis and Attebery families, I have deep roots within our community and a strong commitment to our people's welfare.

Having had the privilege of representing our tribal members as your Vice Chairman, I have gained a profound understanding of our tribal departmental programs. This experience has equipped me to make decisions that prioritize the benefits of our tribal members. I have served in various capacities, including the Housing Authority, Health Board, Education Committee, and Enrollment Committee, and I have worked as a Substance Abuse Counselor. I believe it is essential to work closely with our Social Services and Alcohol & Drug Department to foster healing within our community.

If elected as the Member at Large Yreka District Representative, I am committed to maintaining open lines of communication between the council, staff, and tribal members. Addressing sensitive issues requires sound decisions based on input from our community. By working together, we can leverage our programs to make the best decisions for our tribe.

One of my key goals is to transform our Casino into a destination that attracts tourism, thereby contributing to our economic development. Expanding the casino's potential will not only affirm our tribal community but also improve the quality of life on tribal land. Big plans need to happen to realize this vision.

With your support, we can keep our tribe on the map. Our tribal programs are well-known in Indian Country, and other tribes seek our assistance. We have many hard workers, and we aim to maintain our status as a strong and progressive tribe in California. There is ample room for growth and new enterprises that will boost our tribe.

We must harness all talents and skills for our projects. Employment training, life skills building, and resource gathering will enable our members to provide for themselves and their families. We have many positions to fill, and I am committed to working together to fill them with tribal members. I also plan to collaborate with COS to ensure that tribal members can obtain certificates or degrees while staying close to family and cultural resources.

Vote for a leader with experience who can immediately support our programs, staff, and tribal members. Together, we can continue to move forward as a Tribe.
