

## Attention Tribal Youth aged 14-21!

Learn about careers in the Karuk Tribe's Department of Natural Resources and earn \$10/hr. **Deadline for application June 19!**

Get professional training and job experience in:

- Water Quality
- Watershed Restoration
- Fisheries Program
- Land Resource Management

This four week project (July 8-31) will provide both a western science-based and culturally appropriate opportunity for youth to explore and experience possible career choices offered in the field of Natural Resources. This project supports employment and training activities to develop more fully the academic, occupational, and literacy skills of Native American youth and to make them more competitive in the workforce, as well as to promote the economic and social development of our communities.

# Summer Youth Employment!

Application Deadline is June 19, 2014. Please send to Le Loni Colegrove, Human Resource Manager:

- Letter of Interest in Natural Resources
- Employee Application (see website)
- Background check permission

Transportation from all three Karuk Service areas will be provided to work and training sites at week begin and end. While Youth will be working eight hours for four days a week, overnight supervised camping is recommended. The job is based in Orleans with a two-day training in Weed, College of the Siskiyous.
